

Tiffany Tseng

Senior Product Designer

Product Designer with 10 years in complex, trust-critical systems. Proven track record in enterprise SaaS, regulated clinical software, consumer marketplaces, and AI-assisted products, with measurable outcomes across conversion, traffic, and operational efficiency.

EXPERIENCE

Independent Product Designer • Freelance

OCTOBER 2025 - PRESENT

- Built Verdict AI, a human-in-the-loop moderation tool that scores flagged reviews, shows the evidence behind each decision, and routes unverifiable cases to human moderators
- Analyzed 30,000+ flagged reviews (sentiment, log-odds, similarity) and built a rule-based scoring engine with proper-noun conflict-of-interest detection

Product Designer & Associate Product Manager • Internet Brands

JUNE 2021 - SEPTEMBER 2025, New York, NY

Consumer marketplace for apartment and property reviews

- Designed Review Responder, a property-manager review-reply tool that grew to ~33% of product revenue
- Built Exchange's notification system from zero: a 3-layer architecture across 7 product domains, aligning 12 stakeholders on alert logic
- Built a statistical filter from flagged-review patterns, cutting the abuse team's weekly manual review time by 30%
- Added top-review quotes to listing cards; A/B tested to an 11% CTR lift, then full rollout
- Shipped onboarding improvements including Sign in with Apple, driving ~4,000 registrations in month one
- Redesigned the renter's article library, growing referring domains from 7.5K to 11.1K
- Mentored a junior designer into component-based practice via a Bootstrap 5 Figma library

User Interface Designer • Indigo BioAutomation

JUNE 2020 - JUNE 2021, Carmel, IN

Regulated SaaS for clinical lab data analysis

- Designed the review and dashboard experience for ASCENT, a clinical chromatography/mass-spec SaaS, turning raw scientific data into actionable interfaces
- Ran discovery research with a diagnostics client to design exception-based review workflows, freeing technologists from batch-by-batch review
- Built a multi-state UI component library, improving handoff efficiency in an ISO 13485 environment

Product Designer • EMCT Inc.

MAY 2013 - JULY 2018, Taipei, Taiwan

Government data platforms and public-facing mobile products

- Led end-to-end design of a data-viz platform integrating 45+ sources for government stakeholders
- Owned UX across 17 web and 11 mobile products; redesigned a public app from 3.0 to 4.4 rating, scaling users 10K to 360K

EDUCATION

Indiana University M.S. Human-Computer Interaction

AUGUST 2018 - MAY 2020

National Taiwan University B.S. Geography

SKILLS

Design Systems,
Data-Informed Design, A/B
Testing, Information
Architecture, Accessibility
(WCAG/ADA), Designing for
Data-Heavy & Regulated
Systems, Stakeholder
Alignment, User Research,
Usability Testing

TOOLS

Figma, Figma Make, VS
Code, Claude, ChatGPT,
Framer, Streamlit, Jupyter,
HTML/CSS/JavaScript,
React, Hotjar, Jira,
Confluence

AWARDS

Winner

AT&T FirstNet Hackathon

Seed & Progress Round

Winner

Tech to Protect Challenge
